

NEWLY RENOVATED REHABILITATION UNIT

New England Rehabilitation Hospital is pleased to announce the opening of our newly renovated Rehabilitation Unit (2 North), part of a multi-phased plan to upgrade our patient care environment in Woburn. The rehabilitation unit renovation follows main entry and parking improvements completed in the summer of 2008.

THE UNIT OFFERS:

- Thirty-eight beds, in four private and seventeen double bed rooms.
- An eight patient telemetry service.

WiFi is now available throughout the hospital.

NEWLY RENOVATED REHABILITATION UNIT

SPACE IMPROVEMENTS INCLUDE:

- A large family common room with an oversized flat screen TV and a flexible furnishings plan, allowing patients and families to organize seating to meet their needs.
- A new nurses' station offering improved lighting and flexible space design for efficient organization, maximizing documentation space.
- A new nurse call system linked with bed safety features for improved nurse notification.
- Carpeted hallways which absorb sound, creating a quieter unit atmosphere.

IMPROVED PATIENT ROOM AMENITIES INCLUDE:

- Individual flat screen TVs with cable
- New patient armoire
- Improved climate control
- New Stryker Secure II hospital beds with:
 - Built in weight scales
 - A three-tiered adjustable bed alarm system tied into the nursing call system
 - Mattresses offering superior pressure relief and ulcer prevention
 - Bed extenders for tall patients
- Accommodations for bariatric patients to include bariatric beds and overhead lift (550 lb. capacity), allowing for smooth patient movement across room width and depth
- Room lighting featuring low glare overhead fixtures, three-level lighting control and companion overhead night lights
